

ASH Salt

Thursday, January 16, 2025 9:07 AM

Ingredients

sliced onions
sliced leeks
sea salt

Instructions

On a metal baking sheet, spread a single layer of sliced onions and leeks. Place under the broiler and cook, turning once or twice, until fully charred and crisp, about an hour.

Remove from the oven, cool, then pulverize in a food processor or Vitamix, or in batches in a spice grinder. Combine powdered ash with an equal amount of sea salt (smoked or plain) and pulverize once again. Store indefinitely in a tightly sealed container.

Ingredients

4 leek tops, roughly chopped
Any amount of onion skins

Spread a single layer of onion skins and leek tops on a metal baking sheet. Place under the broiler with the rack 8 inches from the flame and cook, turning once or twice, until thoroughly charred and crisp, about 1 hour. Ensure adequate ventilation with an open window and the oven vent on high.
