

Caramel Whipped Cream

Wednesday, December 3, 2025

22:50

Ingredients

550 g Double Cream / Heavy Cream
1 Vanilla Pod /1 Tsp Vanilla Paste
3 g Powdered Gelatin (200-250 Bloom) + 18g Cold Water
70 g Light Brown Sugar
Pinch Sea Salt

Method

1

In a small bowl, add water to the gelatin and leave to bloom.

2

In a saucepan over medium heat, heat the cream and vanilla until it's steaming (not boiling). Set it aside but make sure it's still hot when you use it.

3

In a separate pan over a medium heat, add the sugar and stir it to make a dry caramel (you're almost just melting the sugar then cooking it for a minute longer - that will be enough flavour!)

4

Pour the warm vanilla cream over the sugar and whisk for 1 minute.

5

Add your bloomed gelatin to a larger bowl and add a pinch of salt. Pour over your hot mixture.

6

Blend the mixture with a hand blender, cover and chill in the fridge for 6 hours.

When ready to serve, whisk to a medium peak with a stand mixer.
